It is believed that the [] comment pertaining to the troop train reported in the reference report is still current.

(3)

25X1

It was assumed that the troops reported in the reference report had left for field exercises. However, reasons for the unloading of the troop trains reported in the present report at Magdeburg are not known. Thus it is believed that these trains either were redispached from Magdeburg or that the troops transported by the two trains were to march from Magdeburg to a training area.

(4)

25X1

The troop trains from Rathenow to Ballgow-Doeberitz and to Fuerstenberg probably carried units of the Second Gds Mecs Army which returned from field exercises in the Rathenow area.

(5)

The units loaded on the troop trains to Jaevenitz and to Gardelegen cannot be identified.
